

Southshore Metropolitan District

January 26, 2024

Southshore residents,

We would like to provide an update to the Senac mucking project. It took four weeks to get the water level down to a workable level. The contractors started dredging on January 1 and as of January 25th roughly 1386 cubic yards of material has been removed. The contractors estimate that the work at Senac pond will be completed by February 9th with weather permitting.

We welcome and encourage your participation in both events at The Lighthouse - 27301 E Southshore Dr, Aurora, CO 80016. Your input and feedback are valuable in this selection process.

January 27th Time: 1:00 PM - presentation by The Management Trust
February 3rd Time: 11:00 AM - presentation by Public Alliance

In service to Southshore,
The Southshore Metropolitan District Board of Directors
